

EXISTING PANEL ARRANGEMENTS

Panel name	Reference number	Description of Panel	Number of vendors on Panel	Expiry date
Professional Electrical Engineering Services Panel	CW2251800	The panel covers, Planning and Advisory Services, Design Services and Delivery Services for; Power Systems, Traction Distribution, Traction Distribution, Traction Power Mechanical & Materials, Low Voltage.	14	30-Sep-21
Plant Maintenance Services Panel	CW2252023	Queensland Rail's requirements for Plant Maintenance Services spans the entire Plant and Equipment lifecycle including acquisition, design, manufacture, validation, testing and maintenance of both new and refurbished rail vehicles and equipment, upgrades and eventually asset disposal. Plant maintenance services for scheduled and ad-hoc maintenance and repairs for on-track machinery and off-track machinery including but not limited to: Light and Heavy metal fabrication and engineering services, Hydraulic and pneumatic component supply, maintenance and repair, Diesel tune up and field services, Transmission overhaul and service and Earthmoving equipment parts supply and service. The panel also includes the provision of spare parts and components.	13	03-Nov-21
Civil Structural Engineering and Investigative Services Panel Arrangement	CW2258961	The scope of works for this panel is the provision of civil / structural engineering and investigative services for Queensland Rail's capital and operational projects. The services will consist of development of engineering design documentation and the associated investigative services, which may include work on-site such as geotechnical exploration, excavation, non-destructive testing (NDT), stress testing, etc. Each services package may form part of a larger project integrating with other Queensland Rail disciplines or the complete design. The service categories covered by the panel are: .Civil Engineering •Geotechnical Engineering •Contaminated Soil Investigation •Hydraulic, Hydrology and Drainage Engineering •Structural Engineering •Track Alignment and Engineering •Surveying •Quantity Surveying •Building Certification •Subsurface Utilities Investigation •Emergency Response	37	31-Dec-21
Insurance Claims and Worker Compensation Panel	CW2258227	A panel of advisers for Insurance Claim and Worker Compensation giving advice and assistance to the Queensland Rail Insurance and Worker Compensation Units in the conduct and management of the defence of Workers Compensation, Personal Injuries and Property Matters (including recoveries) relation to its Queensland Operations.	5	19-Mar-21
Track and Overheads Minor Works Panel Arrangement	CW2260815	A panel for the provision of Track and Overheads Maintenance and Minor Construction Works on Queensland Rail's network. The Works include re-railing, re- sleepering, fastening replacement, undercutting, installation of splays and guardrails, turnout renewal, track reconditioning, level crossing renewal, repair of track defects, rail adjustment and restressing, rail welding, track alignment and geometry, overhead traction & maintenance, signalling & mechanical support for track works and structures repairs	17	31-Mar-21
Cable Panel	CON-5913	Supply and delivery of traction power, signalling and telecommunications cable. There are three suppliers on this panel able to provide cable materials considered critical for the ongoing maintenance activities throughout the network in achieving on-time running targets.	3	14-May-21
Catering Services	CW2245642	Supply and delivery of food, beverage and catering products to Queensland Rail Catering Units located at Brisbane, Rockhampton, Townsville and Cairns. The panel covers the following categories: - Beverages, Meat and Seafood, Fruit and Vegetables, Dairy	12	06-Jun-21

Panel name	Reference number	Description of Panel	Number of vendors on Panel	Expiry date
		Products, Dry Goods, Catering Equipment and Supplies		
Bulk Fuel, Lubricants and Fuel Card Services	CON-4983	The panel is for the supply of fuels, Lubes, Bulk fuel and oils.	2	30-Jun-24
Equipment Hire Panel	CW2262524	PLANT & EQUIPMENT HIRE SERVICES PANEL (Wet & Dry Hire Services State-wide) • Earthmoving/Road Building Equipment • Cranes and Lifting Equipment • Rail Specific Equipment • Road Vehicles • Minor Equipment • Facilities Equipment • Miscellaneous	115	30-Jun-21
Supply of Track and Civil Labour Hire Services Panel	CW2262526	The scope of this panel is the provision of specialised labour for civil and track works undertaken by Queensland Rail's on its network, mainly in the rail corridor and to a lesser extent in yards and train stations. The types of labour services available are detailed below:Track Works •Track Inspector / Examiner / Certifier•Track and Construction Maintainer•Rail Welder – Aluminothermic•Rail Welder – Arc Welding•Rail Labourer •Ultrasonic Rail Tester•On-Track Plant Operator – Track Machine•Supervisor•Leading Hand Steel Works •Steel Structures Maintainer/Repairer•Steel Structures Examiner/Inspector•Boiler Makers •Structural Iron & Steel Worker•Steel Installer/Fixer•Metal Welder Concrete Works •Framing Carpenter•Form Worker•Concrete Labourer•Concreters •Masonry Worker •Carpenter•Brick Layer•Concrete / Masonry Structures Maintainer / Repairer•Concrete / Masonry Structures Examiner / Inspector Drainage Works •Pipe Layer•Pipe Layer's Assistant•Drainage Labourer •Drainer•Plumber Civil & Structures Site Construction Supervision •Construction Supervisor•Construction Leading Hand •Construction Foreman Other •Earthworks Labourer•Earthworks Supervisor•Earthworks Leading Hand •Timber Structures Maintainer / Repairer•Timber Structures Examiner / Inspector•Overhead Wiring Linesman Tools & Equipment (in addition to the labour services) •Light Vehicles•Tool Trucks •Welding Equipment & Trucks (excluding weld kits, which are supplied by Queensland Rail)•Hi-rail Equipment (QR Approved & certified as required)	14	30-Jun-21
QITC - 2017 ICT Delivery Services Panel	CW2257814	Panel Arrangement includes Technology Assurance, ICT Advisory Services and Managed Service Management, Technology Delivery and Project Management	10	30-Jun-21
Coaching Bench Services Panel Arrangement	CW2261412	A Panel to provide coaching and related services to enable leaders to drive transformation at Queensland Rail. Working in partnership with Queensland Rail to build capability of leaders of our diverse workforce. Leader Levels: • Executive • Senior Leader • Intermediate Leader • Frontline Leader/Team Leader	10	31-Jul-21
Transport Services Panel	CON-6001	The panel covers the following transport services to Queensland Rail: a) Same Day Local Deliveries b) Overnight Express Deliveries c) Covered and Uncovered Deliveries d) Transport of palletised loads both inside Queensland and interstate. e) Transport of long items inside Queensland (steel components up to 27.5m in length). f) Transport of part and full loads of materials such as concrete and timber sleepers, bridge girders, masts and portals, transformers, electrical cable, power conditioners etc. weighing up to 24 tonnes inside the State of Queensland	13	26-Sep-21
Civil and Structural Works Panel Arrangement	CW2258959	A panel for the provision of civil works and construction of concrete and steel structures within Queensland Rail's Network, mainly in the rail corridor, and to a lesser extent in yards and train stations. The works may include earthworks, construction of civil structures such as culverts and associated drainage structures, steel structures such as walkways and construction of retaining walls and noise barriers. The works will mainly consist of construction works, however could also involve some related design	16	30-Sep-21

Panel name	Reference number	Description of Panel	Number of vendors on Panel	Expiry date
		<p>components.</p> <p>The works fall into one or several of the following categories:</p> <ul style="list-style-type: none"> •Earthworks •Drainage •Steel works •Concrete works •Shotcrete works and open trenching •Underground boring works •Asphalt works •Other civil structure works 		
Signalling Engineering Services Panel Arrangement	CW2267436	<p>The Services are for labour hire and/or services packages for the following categories: Audits, Principles, Standards & Specifications; Type Approvals; Concept Development; Project Coordination; Design / Design Assurance; and Test & Commissioning. Labour Hire (refer to the General Statement of Work - Appendix B: Technical Requirement, for comprehensive detail). 1) Audits, Principles, Standards & Specifications • Principal Signalling Engineer 2) Type Approvals • Type Approval Engineer 3) Concept Development • Senior Concept Coordinator • Senior Signalling Concept Engineer 4) Project Coordination • Signalling Project Coordinator 5) Design / Design Assurance • Signal Designer • Signal Design Production Officer • Signal Design Engineer • Senior Signal Design Engineer • ETCS Senior Signalling Engineer Queensland Rail – Commercial in Confidence 6) Test & Commissioning • Senior Signalling Principles Tester • Test & Commissioning Coordinator Services Packages (refer to General Statement of Work - Appendix C: Package of Services - Technical Requirement, for comprehensive detail) 7) Signalling Project Independent Safety Assessor and Auditor (ISAA) 8) Signalling Product ISAA 9) Design / Design Assurance 10) Signalling Design / Maintenance Audit 11) Type Approval Services</p>	20	31-Oct-21
Learning Services Panel Arrangement	CW2257928	<p>A panel of Learning and Development providers across three categories.</p> <p>Category A. Learning Design & Development Services the design of blended learning programs, resources and supporting materials by successful contractors across some subject areas.</p> <p>Category B. Learning Delivery & Assessment Services -the delivery of standard or customised courses across some subject areas</p> <p>Category C. Language, Literacy & Numeracy (LLN) Support Services - the design and delivery of specialist Language, Literacy and Numeracy support services.</p>	43	31-Oct-21
Fencing Panel	CW2268545	<p>A panel for provision of Fencing Works within Queensland Rail's network, mainly in the rail corridor, and to a lesser extent in yards and on train stations.</p> <p>The Works include:</p> <ul style="list-style-type: none"> •Supply of fencing materials as per specification •Excavation / Construction works for fencing; •Vegetation removal and ongoing fence maintenance; •Disposal of fencing material; and •Emergency fence repairs covering all areas in SEQ Metropolitan area. 	8	01-Jan-22
Traffic Management Panel	CW2273025	<p>A panel of Traffic Management providers that can carry out specific services promptly as and when required under an agreed rate structure.</p>	18	28-Feb-22
Supply of Timber Sleepers	CW2267167	<p>A panel of approved railway timber suppliers.</p>	8	30-Jun-22

Panel name	Reference number	Description of Panel	Number of vendors on Panel	Expiry date
Supply of Network Protection Officer Services Panel	CW2260305	A panel of Protection Officer Services for construction, renewal and maintenance of track and civil infrastructure as well as external Third party works.	5	27-Oct-22
Supply and /or Install of Major Power Equipment	CW2274621	Standing Offer Arrangement for the supply and/or install of the following: <ul style="list-style-type: none"> . Transformers . Power Electronics . Switchgear . Remote Terminal Units, Supervisory Control and Data Acquisition & Associated Equipment . Protection, Control and Metering Equipment . Overhead Line Equipment (OLE) 	10	31-Oct-22
Supply of Geosynthetics Panel	CW2280740	This panel is for the supply and delivery of geosynthetics (permeable, synthetic fabrics used in civil engineering) when used in association with soil, can separate, filter, reinforce, protect or drain. Primarily used within the rail corridor, under and around track	2	03-Feb-23
Accessibility and Compliance Services Panel	CW2275989	A Panel of accessibility services suppliers across six categories: <ul style="list-style-type: none"> • Access and compliance auditing • Design and construction specialist advice • Planning and governance specialist advice • Awareness raising training • Advisory panel member (where Queensland Rail chooses to convene an advisory panel) • Event management specialist advice 	15	31-Mar-23
CCTV and Security Services Panel	CW2281390	A panel of CCTV Security Services providers for the - Removal and/or decommission of CCTV and Security systems where required - Supply, installation and commissioning of CCTV cameras,- Security systems including alarm panels, door controllers,- Data gathering panels (DGP) and other peripheral security devices.- Supply and installation of camera power supplies, camera poles, camera brackets, fixings and housings,- CCTV and Security cabling, conduit (including underground) and commissioning of new works.	6	01-Mar-24
Supply and Delivery of Masts, Portals and Associated Steelwork Panel	CW2283683	New construction and renewal activities associated with the existing Overhead Traction Wiring and Signalling Systems require masts, gantries and associated steelwork to be manufactured, supplied and delivered to various locations that form part of QR's electrified and signalling network within QLD. The panel comprises of both Parts A (manufacture, supply and delivery of masts, portals & gantries) and Part B (manufacture, supply and delivery of associated steelwork components for overhead traction wiring and signalling equipment)	3	24-May-25
Forensic Cleaning Services Panel	CW2281573	The Panel Services include but are not Limited to: Provide specialised Forensic Services Clean up at sites such as Station Platforms, Level Crossings or within the Rail Corridor, this may also include Rail Vehicles. Transport and incinerate biohazardous material relating to the forensic cleaning process	2	24-Jun-25
Alternative Coach Providers Panel	CW2280746	A panel of Alternative Customer Transport Service providers for when Queensland Rail has a requirement to engage alternate Transport providers during times of planned and unplanned Service disruptions.	8	31-Jul-25
